

HVAC EXAMINER VIDEO INSPECTION SYSTEM

For Heat Exchanger Exams, Duct Inspections and Mold Detection

Smaller, Lighter. Brighter and In Color! Our newest "Reality TV" is the perfect high-tech diagnostic tool for identifying heat exchanger cracks and other system problems. A must for HVAC Contractors and Duct Cleaners. No service vehicle should be without it!

This new system is housed in a tough Pelican® case and features a super sharp 5" LCD color monitor that 'tilts' for convenient viewing. And, the miniature, high-resolution video camera, surrounded by an LED array, is housed in a 1" diameter solid brass casing so it fits into tight spaces. Plus, the LED's have two light intensities..*high*, to provide plenty of light for duct inspections and *low*, when working closeup and less illumination is required.

The system comes complete with a 36" "gooseneck" camera wand with carrying case and color monitor. Available options include a VCR adapter so that inspection sessions can be recorded, and a microphone so that important data and comments can also be recorded for use later.

This is one tool that will impress your customers and pay for itself in a hurry!

APPLICATIONS

- › "Seeing is Believing" When Customers Can See The Actual Condition of Their Heat Exchangers
- › Perform Duct Inspections While Customers View The Results
- › Detect & Identify Mold and Document Your Findings

FEATURES

- › Sharp 5" LCD Color Monitor
- › Tough, Compact Carrying Case is Virtually Indestructable, Waterproof & Lockable
- › Easy to Use Controls & Plug-Ins
- › High Resolution Miniature Video Camera on 36" "Gooseneck" with 15' Cord
- › High/Low Intensity LED Array
- › Adjustable Camera Focus
- › VCR Compatible
- › Solid Brass Camera Housing

OPTIONS

- › VCR Adaptor
- › Microphone

P/N IS5000

SYSTEM ACCESSORIES AND SPECIFICATIONS

OPTIONAL ACCESSORIES

VCR Adaptor is easy to use and retains all the functionality of the system, including the high/low settings for the LED array.

Microphone plugs directly into the VCR adaptor, and is invaluable for recording important inspection data that may be required later. Both accessories fit into the convenient compartment in the Pelican case.

WAND CARRYING CASE

The case is 38" long and features a carry strap and rigid inner lining to protect the camera, wand and video cord.

MINIATURE VIDEO CAMERA

Incredibly small, as shown in this graphic illustration, and incredibly sharp, it delivers crisp color images to the monitor. And, The high/low intensity LED array provides just the right amount of light for any inspection job.

DIMENSIONS

Case: 13.5" w x 11.5" d x 6" h

Weight: 6.8 lbs

Wand: 36"

Carrying Case: 38", Wt. 3.1 lbs
